Career Objectives

- Seeking a software developer role at a dynamic, innovative company where I can utilize my skills to build high-quality products.
- I'm looking to contribute my skills and a bit of experience creating reliable web and mobile applications, resolving challenging problems, and enhancing system performance to a cooperative engineering team

Education Background

- **Primary**
ISIDORO SUZARA MEMORIAL SCHOOL
S.Y. 2010 - 2016
- **Secondary**
PUERTO GALERA NATIONAL HIGH SCHOOL
S.Y. 2016 - 2022
- **Tertiary**
MINDORO STATE UNIVERSITY (Bachelor of Science in Information Technology)
S.Y. 2022 - 2026

Personal Data

Date of Birth: September 13, 2004
Language: Filipino & English
Civil Status: Single
Citizenship: Filipino
Religion: Catholic
Hobby/Interest: Reading Books & Experimentation

Work Experience

Internship in a Software Firm | Software Intern, DICT
2026 - Present

Key responsibilities:

- Assisted senior software analysts in conducting vulnerability assessments and penetration testing for client networks and applications.
- Collaborated with the incident response team to investigate security incidents, analyze network logs, and implement remediation strategies.
- Participated in software awareness training sessions, educating employees about best practices and raising awareness about common cybersecurity threats.

Capstone Project on Network Security | Research Project
Mindoro State University - 2025

Achievements

2012 - 2016 Computer Literacy Award
2015 - 2020 Contributed to open-source projects on GitHub, making impactful code contributions and actively participating in project discussions and issue resolution.

Certification

- CompTIA Security+
- Oracle Certified Associate (OCA) - Java Programmer
